

REJUVENATE
Hepatic Function Of
Your POULTRY
LIVONEED
Unique liver restoration formula

When toxicity hits...
For the detoxification Efficacy Matters

The liver, being one of the most vital organs of the body, constitutes the lifeline system of the birds. The liver plays a major role in digestion, metabolism, and utilisation of feed nutrients. Being the chief metabolic organ and at the centre of several digestive, metabolic and productive activities, the liver is ever endangered by microbial and chemical toxins. The role of the liver in the bird is for Detoxification, Protein metabolism, Fat metabolism, Carbohydrate metabolism, Vitamin metabolism, Iron metabolism and Erythropoiesis. It is imperative to ensure that the Liver is always well protected and is in good health.

LIVONEED is a complete liver tonic, perfect combination of metabolic stimulants, antioxidants, vitamins, detoxifiers, and highly effective hepatic stimulant. Livoneed is a rejuvenator and has antioxidant property that enhances the performance of Liver.

LIVONEED works on the concepts of Stimulation, Protection and Rejuvenation of the Liver. Due to these actions Growth promotion and Production enhancement is the beneficial outcome.
