WE-PROMIN

AMINO ACIDS WITH PROTECTED VITAMINS AND MINERALS

- Improves Growth and Body weight
- Improved Egg Production and reduces stress
- Improves quality of Eggs and reduces mineral deficiency
- Make up the requirement of amino acids
- Supportive therapy for lameness

Composition: Each 10ml contains : Lysin - 1200mg, DL methionine- 400mg, Isoleucine- 250mg, Leucine- 250mg, L-threonine- 700mg, L-triptophan- 250mg, Vit B1 - 400mg, Vit B2- 200mg, Vit B12- 560mg, Zinc- 10mg, Manganese- 5mg, Cobalt- 1mg, Ferrus- 12mg, Protien hydrolysate(Enzyme hydrolyzed)– QS

Description: We Promin contains all the limiting amino acids & minerals in chelated form to fulfil the nutritional gap, to maximize production and economic returns. Methionine is present in the form of Methionine Hydroxy Analogue (MHA), which is a natural precursor of Methionine in the body. It is used in farms during the following conditions Stress Conditions Non-uniformity in the flock This leads to enhanced farm output up to 5% level and the net profitability.

Dosage for Poultry: Once a Day

Broilers : 5-10ml/ 100 birds

Layers: 10-20m/ 100 birds

WE CARE ANIMAL HEALTH

ISO 9001:2015 & GMP Certified Company

No More Nutritional Deficiencies

WE-PROMIN

AMINO ACIDS WITH PROTECTED VITAMINS AND MINERALS

Indication:

- Prevents production failure related to nutritional deficiencies
- Improves size, production, and quality of eggs
- Improves fertility, hatchability- Female breeder
- Improves semen quality- Male breeder
- Improves carcass quality
- Reduces mortality
- Compensates for loss of nutrients

Features:

- Powerful nutritional blend of limiting amino acids, macro & micro minerals with choline chloride
- Rich in limiting amino acids: Methionine and Lysine
- Methionine in Methionine Hydroxy Analogue (MHA) form
- Minerals in Chelated form
- Choline Chloride in higher concentration

Benefits:

- Fulfills unmet nutritional requirements as a growth promoter in growing birds, production phase, heat stress, infections, toxicities, for uniformity and stress
- Empowers faster growth, production, and reproduction
- MHA forms gets readily absorbed throughout intestines and converted into L-Methionine for faster body weight gain and egg production
- Higher bioavailability in gut leads to optimum absorption of minerals in heat stress to improve feed intake & digestion, eggshell quality & bone growth
- Keeps liver healthy. Support to reduce heat stroke mortality, fatty liver syndrome

Presentation: 35Ltr./5Ltr./ 1Ltr./ 500ml

*Poultry feed Supplement not for Human Medical Use.
