

WE-VIT

SUPPORTING ANIMAL IMMUNITY AND HEALTH

Get Optimized Bird Health

Vitamins play a vital role in supporting animal health and animal welfare. With the important functions in supporting animal immunity and health, WE-VIT contribute not only to animal well-being but also to animal performance. Birds can benefit from additional vitamins to give support to their system. These helps stabilize the internal balance, as some vitamins are used up faster or are required in larger quantities particularly during times of challenge or stress. A disruption to the balance can induce a decreased appetite, therefore reducing feed intake and egg production. As birds usually continue to drink, the addition of supplementary vitamins through We-VIT to the drinking water help support the bird, as they will be ingesting more of these vital nutrients through their water.

Composition: Each 5ml contains: Vitamin A (2.50,000 IU), Vitamin D3 (25000 IU), Vitamin E (150 mg), Vitamin C (500 mg).

WE – VIT delivers three key areas essential for animal performance:

Bio-availability: They increase the availability of dietary vitamins to the animal's metabolism.

Stability: They are formulated to survive feed manufacturing processes thus available to the animals eating the feed.

Handling: They are produced to ensure efficient mixing and inclusion in feeds.

Dosage for Poultry:

Per 100 birds/day in morning water for 5-7 days

Chicks 5ml, Grower 10ml, Layer & finisher 10-15ml

WE-VIT

SUPPORTING ANIMAL IMMUNITY AND HEALTH

Improve Fertility in Birds

Indication:

Helps in conditions like:

- ◆ Enteritis.
- ◆ Coccidiosis.
- ◆ Helminthiasis for tissue repair.
- ◆ Dermatitis.
- ◆ Gout.
- ◆ Drop in egg production.

Benefits:

- ◆ Prevents early chicks mortality
- ◆ Improves vaccine titre
- ◆ Improves laying performance even in severe condition
- ◆ Maintain optimum level of nutrients in the bird
- ◆ Supporting optimal growth
- ◆ Bone formation
- ◆ Fertility & reproduction
- ◆ Disease resistance
- ◆ Driving feed cost optimization
- ◆ Egg production
- ◆ Meat, egg and milk quality
- ◆ Reducing food loss and waste

Presentation: 5Ltr./ 1Ltr./ 500ml.

*Poultry feed Supplement not for Human Medical Use.
