

# WE - FLYOSAFE

## POTENT FLY CONTROL BIOCIDAL

### **Poultry Farm Fly Control**

WE-FLYOSAFE is a naturally occurring, environmentally friendly and host-specific BioPesticide that targets flies & their larvae when applied at poultry farms. For poultry farm fly control, WE-FLYOSAFE uses no toxic chemicals and no health concerns. Flies can carry more than 65 disease organisms that affect humans and poultry. In poultry, they can spread tapeworm, Newcastle disease, Salmonella, Campylobacter, and E. Coli. Flies transmit several poultry diseases as well as harbor several parasites.

#### **Composition:**

Neem, Tulsi, Lemon Grass, Dhatura and many other extracts of plant.

#### **Description:**

New generation herbal formulation leading to best control naturally at a very low dose. No harm to beneficial organism or humans and birds. WE-FLYOSAFE is a perfect blend of herbal extract which is completely non-toxic. It effectively controls adult fly and their larvae growth.

#### **Dosage for Poultry:**

250gm in 10-15ltr of water for 2500 sq feet area. Spray after 6 to 7 days, if required. Or as prescribed by veterinarian.

#### **Presentation:**

1 kg pack
