

# WE-LYTE

ULTIMATE ELECTROLYTE FOR POULTRY

## **Immediate Relief For Your Poultry**

We Lyte is a fast-dissolving poultry supplement designed to solve the urgent need for rehydration in situations where animals lose a lot of water and electrolytes. Electrolytes take care of electric conductivity in the body, which is needed for lots of functions such as the beating of the heart or the contraction of muscles. Our electrolytes for poultry can be used for broilers as well as layers (Chicks and Birds).

**Composition:** Sodium Chloride, Magnesium Sulphate, Calcium Gluconate, Potassium Chloride, Vitamin C (Coated), Lactobacillus viable spores, Dextrose Anhydrous

**Dosage for Poultry:** 500gms. - 1 kg per ton of feed or 1 gm in 2 liter of water for 3-5 days. In case of water and Electrolyte Imbalance, double the recommended level, giving as much as fluid bird can take.

### **Recommendation:**

- Prior to and after transportation.
- In extreme temperatures (high or low)
- Other areas of stress
- Recommended for all kinds of stress including heat stress.
